

## *The Rebirth of a Classic*

Rawhide Series garage doors are built for strength and longevity. The Rawhide Series offers 24 gauge steel without sacrificing beauty. The exterior of the door is embossed with a woodgrain texture finish accented by the elegant raised panel design. These are cost effective garage doors produced with exceptional quality, using only the finest materials.

*Our Passion is Garage Doors*

## Introducing the Rawhide Series.

**A distinctive design in steel sectional garage doors.**

**The exterior of the door is embossed with a woodgrain texture finish accented by a vintage raised panel design. The Rawhide is a quality constructed steel sectional garage doors offering exceptional value without sacrificing beauty or durability.**

**Specifications:** Sections are 2-inches thick and manufactured from hot-dipped galvanized steel. Sections are pre-painted embossed with a woodgrain texture, RITS™ reinforced integral truss system designed for increased section strength that includes tongue and groove weather resistant meeting rails. Tongue and groove-meeting rails are roll formed into the panel. Vertical stile members are 19 gauge hot-dipped galvanized I-beams. Galvanized stiles are riveted and bonded to the interior face of the door with silicon-based cement. Galvanized I-beam center stiles are engineered to reinforce the construction of the section and designed to eliminate the use of plastic reinforcement angles when the section is post insulated. H2 or H3 hardware pack.

Bottom Extrusion Heavy duty grooved "U" type weather seal is set into an aluminum reinforced "L" angle, and fastened to the bottom section. Bottom sections are reinforced with aluminum "L" angle and fastened to the section for supporting a replaceable UV protected bottom weather seal.

Optional CFC free Polystyrene insulation with a rigid vinyl back skin is available (R factor of 6.25). Calculated door section R-Values are in accordance with DASMA TDS-163.

Laminated PVC backing is available as a factory installed option.

Optional window designs available.

**Warranty** - The Rawhide model has a limited lifetime warranty. 1st United Door Technologies warrants each garage door to be free from defects in material and workmanship to the original purchaser. A copy of this warranty is available upon request.
